

# **Wanted by Barkerville Historic Town: Contractor for Cemetery Restoration Work**

Barkerville Historic Town is looking for a contractor to carry out restoration and improvement of the old section of the Wells-Barkerville Cemetery. The contractor will be responsible for restoring grave plots, fences, trails and landscaping in the old section of the Wells-Barkerville Cemetery. The total amount of the contract will be for \$7,000.00 inclusive of all expenses including any taxes which will include proof of \$2 million third party liability insurance for the duration of the project. It is expected that the contractor will carry out this service over the months of June, July, August and September with the greatest effort in restoration occurring in June and July with general maintenance being carried out on a five day a week basis throughout this time to ensure that the restoration efforts have a long term effect. Hours of work are up to the contractor, but will be identified in a written proposal, along with estimates of expenses for tools and equipment needed. This price will be inclusive of all tools used, all labour costs and the removal of garbage and debris. The objective is a neat and tidy area where it will take more than one year for the vegetation to return to its present state and that all plots, exits and entrances, furniture and fences are in relatively good shape. The Contractor is expected to become familiar with the Cemetery master plan, as well as to spend time in the Barkerville Library-Archives learning about the people in the Cemetery in order to help address questions by the visiting public. It should be noted that this is not an interpretation contract and the contractors are only expected to provide a minimum of information and direct serious research questions to the Library-Archives in order that they may complete restoration work in a timely fashion.

**Send Proposals to:**

W. G. Quackenbush,  
Barkerville Historic Town,  
Box 19, Barkerville B.C.
